**AMENDMENT**

Assistant Commissioner of Patents and Trademarks  
Patent and Trademark Office  
Washington, D.C. 20231

Dear Sir:

**In the Specification**

Please amend the specification as follows:

Replace the title with the following: **TRANSGENIC PLANTS COMPRISING POLYNUCLEOTIDES ENCODING TRANSCRIPTION FACTORS THAT CONFER DISEASE TOLERANCE.**

Replace the abstract of the invention with the following:

The present invention provides a transgenic plant comprising a polynucleotide encoding a transcription factor that may be used to confer disease tolerance to the plant. Further, the invention provides a method for altering the disease tolerance of a plant by altering the expression levels of the polynucleotide encoding the transcription factor, and the polynucleotide and polypeptide sequences themselves.

**In the Claims**

Please amend the claims as follows:

1. (Once amended) A transgenic plant comprising a recombinant polynucleotide comprising a nucleotide sequence encoding a polypeptide comprising at least 6
